

# Daisy Earrings, Bracelet, Necklace

© Jane Eborall - 2008

[Click here](#)

Below are the patterns for earrings and a bracelet/necklace. The bracelet/necklace pattern has an added SR between the daisy motifs so that it can curve.

**Skills required.** Knowledge of split rings and adding beads to long picots - see below for help links.

### Abbreviations

R	ring	SR	split ring
- or p	picot	MB	move bead in place of p
/	after the / make 2nd half of SR	SH2	Shuttle 2 (shuttle in right hand)
+ B	add bead to picot before joining	+	join
SS	Switch shuttles	Cl	close
SH1	Shuttle 1 (shuttle in right hand)	T & C	Tie and cut
S	start		

### Earrings

**Materials required.** Thread, seed beads two larger beads for the centres of the earrings measuring approximately 1/4" in diameter and a split ring (jump ring). Safety pins/paperclips also needed to keep beads on the LBP – [see this page for tips.](#)

For a pair of earrings add 12 beads to Sh1 and 8 to Sh2. Move 2 beads to back of hand before starting ring 1.

R1: 1 LBP (7 beads) 2 B 3 + (split ring finding) 3 B 2 LBP (7 beads) 1 Cl - see Fig. 1

SR2: MB 3 - 3 / MB 3 - 3 (before closing add large bead to core thread holding in place with a safety pin) Cl See Fig. 2 & 2a and [this link too..](#)

R3: MB 3 + B (3<sup>rd</sup> p last R) 3 + (2<sup>nd</sup> LBP R1) 1 LBP (7 beads) 3 - 3 Cl

R4: MB 3 + B (3<sup>rd</sup> p last R) 3 + (LBP R3) 1 LBP (9 beads) 3 - 3 Cl RW SS See fig. 3

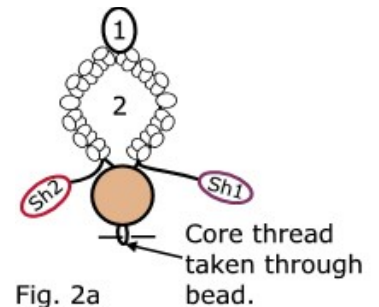

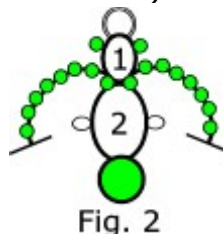

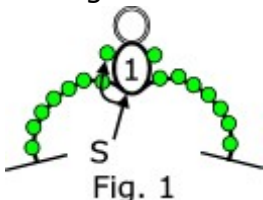

**R5: MB 3 + B (1<sup>st</sup> p R1) 3 + (1<sup>st</sup> LBP R1) 1 LBP (7 beads) 3 - 3 Cl**

**R6: MB 3 + B (3<sup>rd</sup> p last R) 3 + (LBP R5) 1 LBP (9 beads) 3 - 3 Cl RW SS** See fig 4

SR7: MB 3 + B (3<sup>rd</sup> p R4) 3 / MB + (loop through central large bead. Take core thread through the loop and take thread on Sh2 through this loop) 3 + (3<sup>rd</sup> p R6) 3 Cl

[See this page for further help.](#)

Now take the threads from SR7 through another large bead (or several small ones) and then through the loops at the end of the LBP's on R4 & R6. Add further beads if required and tie, cut the ends adding a dab of white glue to secure. Alternatively the threads can be taken back up through all the beads (except the very bottom one) and sewn back into SR7.

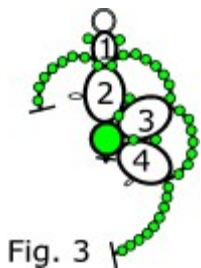

Fig. 3

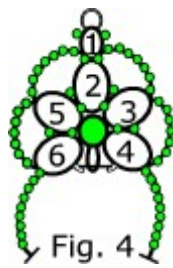

Fig. 4

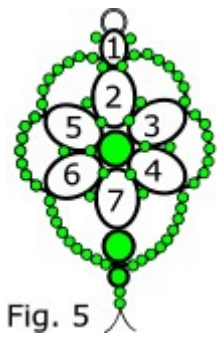

Fig. 5

### Bracelet (or Necklace)

**Materials required.** For a 6" bracelet you will require - thread, seed beads, 6 larger beads for the centres of each daisy ( $\frac{1}{4}$ " in diameter), 5 smaller beads ( $\frac{3}{8}$ " in diameter) for between the daisy motifs and clasps/fastenings.

For a bracelet measuring 6" (excluding catches) add 40 beads to Sh1 and 34 to Sh2.

Using Sh1 move 2 beads to back of hand before starting.

R1: 1 LBP (7 beads) 2 B 3 + (catch) 3 B 2 LBP (7 beads) 1 Cl

SR2: MB 3 - 3 / MB 3 - 3 (before closing add large bead to core thread holding in place with a safety pin) Cl

\*R3: MB 3 + B ( $3^{\text{rd}}$  p last R) 3 + ( $2^{\text{nd}}$  LBP R1) 1 LBP (7 beads) 3 - 3 Cl

R4: MB 3 + B ( $3^{\text{rd}}$  p last R) 3 + (LBP R3) 1 LBP (7 beads) 3 - 3 Cl RW SS

*R5: MB 3 + B ( $1^{\text{st}}$  p R1) 3 + ( $1^{\text{st}}$  LBP R1) 1 LBP (7 beads) 3 - 3 Cl*

*R6: MB 3 + B ( $3^{\text{rd}}$  p last R) 3 + (LBP R5) 1 LBP (7 beads) 3 - 3 Cl RW SS*

SR7: MB 3 + B ( $3^{\text{rd}}$  p R4) 3 / MB + (loop through central large bead. Take core thread through the loop and take thread on Sh2 through this loop) 3 + B ( $3^{\text{rd}}$  p R6) 3 Cl

MB as before and place another bead at the back of hand before wrapping thread round hand

SR8: 1 + (LBP SR7) 2 B 2 LBP (7 beads) 1 / MB 1 + (LBP SR7) 2 MB 2 LBP (7 beads) 1 add large bead to centre of SR Cl. [See this page for more help.](#)

SR9: MB 3 - 3 / MB 3 - 3 (before closing add large bead to core thread holding in place with a safety pin) Cl \*

Repeat from \* to \* 4 times and then from R3 to SR7 once

MB as before and place 2 beads at the back of hand before wrapping thread round hand

Final Ring: 1 + (LBP last SR) 2 B 3 + (catch) 3 B 2 + (LBP last SR) 1 MB Cl T & C

### Alternative start and finish for slightly shorter bracelet.

For a slightly shorter bracelet add 40 beads to Sh1 and 34 to Sh2 and start at SR2 making this a ring as follows -

R2: 3 - 3 LBP (7 beads) 1 + (catch) 1 LBP (7 beads) 3 - 3 (before closing add large bead to core thread holding in place with a safety pin) Cl

Continue from R3 as above.

Last ring of final six ring cluster: MB 3 + B (last R) 3 + (LBP) 1 + (catch) 1 + (LBP) 3 + (last SR) 3 Cl MB T & C
