Skills Required. Although this pattern might appear difficult because of the amount of beads, it is in fact quite simple. The only skills required are a knowledge of SCMR (thrown off a chain) and adding beads. Some beads are added to the thread before starting but the majority [are added this way](#) for the long beaded picots (LBP). The instructions in red and italics are for those wishing to work front side/back side tatting. This can be ignored if wished!

Materials required - split ring (like a key ring) measuring ¼". Number 20 thread, beads and two shuttles.

Cover ring [using this method](#). Alternatively a small ring can be worked instead but I found using a split ring gave the top of the flower a firmer base.

Round 1 – shuttle and chain.

Add bead to Sh1 and keep on shuttle until required. Leave ½ yard thread before starting and cover split ring.

R1: ([covering split ring](#)) 3 – 3 – 3 – 3 – 3 – 3. Move bead on shuttle thread to sit next to the last ds worked. Take the ½ yard length of thread through bead. You can continue working with the rest of the remaining short thread until it runs out then replace with thread from the ball.

SR2: 2 – 1 LBP (9 beads) 1 / 2 – 1 LBP (9 beads) 1 Cl RW

Ch: 3 – 1 LBP (9 beads) 1 LBP (5 beads) + (LBP) 1 LBP (9 beads) 1 – 3 RW

*R3: 1 + (2nd LBP SR2) 1 + B (p SR2) 2 + B (next p centre) 2 – 1 LBP (9 beads) 1 Cl RW

Ch: 3 + (p last Ch) 1 + (LBP last Ch) 1 LBP (5 beads) + (LBP) 1 LBP (9 beads) 1 – 3 RW

Repeat from * all round not forgetting to join R7 to R2 and the LBP followed by the last chain to the LBP on the first Ch.

Round 2

2 shuttles – 6 beads on Sh2

Repeat all round not forgetting to join the last LBP's on the first Ch to the last Ch. Also

remember to join the LBP on SCMR2 to the last SCMR.
