Originally designed for the Palmetto tatters Tat Days in 2007. This frog uses a continuous thread join which is another way of working back over a part of the work without using a chain.

Materials required - Thread no. 20. Bugle beads (32), seed beads for end of toes (16) and 2 large beads for the eyes (about 1/4").

N.B. each toe consists of 1 bugle, 1 small bead, 1 bugle. There are four toes on each foot!

Abbreviations

R	ring	Ch	chain
- or p	picot	SR	split ring
/	after the / make 2nd half of SR	B	move bead in place of picot
Bet	between	vsp	very small picot (smallest you can make)
Sh1	Shuttle 1	Sh2	Shuttle 2
Lj	lock join	+	Join
Cl	close	T & C	Tie and close
CTJ	continuous thread join	SCMR	self closing mock ring
DNRW	do not reverse work	Mb	move bead on core thread
Fp	false picot	SSh	switch shuttles

CTJ: This is made by holding the shuttle with thread closest to last SR in the left hand and pulling it up or down (as stated in pattern) through the VSP and taking the other shuttle thread through the loop formed. Continue through each successive VSP.

Before starting add beads for one foot to Sh1 & beads for three feet to Sh2. The eye beads will be added to the centre of the SR later.

Body – Using Sh1 in the right hand as the working shuttle.

SCMR1: 3 – 2 SSh
 R: Fp 1 – 1 – 1 – 1 – 1 – 1 Cl SSh return to SCMR
 SCMR1 Fp 2 – 3 Cl RW

Upper Left Leg – NB leave very small spaces between SR's for joining CTJ

SR2: 1 *VSP 1 repeat from * 4 times (5 VSP's) / 6 CI

SR4: 3 + (last VSP SR3) 1 VSP 1 VSP 1 (2 VSP's) / 6 CI RW SSh.

You should now be using SH2. Before starting next R place all beads needed for 4 toes at back of hand (each toe needs 1 bugle, 1 round bead, 1 bugle).

You should still be using SH2 to make the next R. Before starting place all beads needed for toes as before.
