### **Finishing**

Take the points of the outer star below the inner star and over the long chain of 20 ds. Next take an old CD and place on the ironing board. Pin the outer points of the outer star over this CD (six pins only) and press with a very damp cloth. Take two pins out and slip CD out of it's position re-pinning the two points. Allow to dry.

Using fishing line or transparent sewing thread sew the star over the CD by taking the thread from outer to inner to outer to inner points and over the back of the CD. Continue all round tying the two ends to hold in place.
