**Abbreviations**

R	ring	Ch	chain
SR	split ring	vsp	very small picot
Cl	close	SS	switch shuttles
Lj	lock join	RoSR	ring on split ring
DNRW	do not reverse work	RW	reverse work
btwn	between	T & C	tie and cut
LP	long picot	LCh	Lock chain. First half ds normal, second half unflipped
CWJ	Catherine wheel join	RoCh	Ring on chain
MB	Move bead along core thread to lie next to last ds worked		
SLT	Shoe lace trick (tie a knot)		

Although the pattern is for a parrot a budgie, cockatiel or cockatoo may also be made from the basic idea. Instructions are given for adding a crest.

**Materials required.** Thread of your choice (number 20 thread gives a parrot measuring 3 1/2") and small seed bead for eye.

**NOTE** – for those who prefer front side/back side tatting the text in italics and red indicates where the worker needs to use the second half of the ds first.

**Wing**

SR1: 4 vsp 4 / add spacer to core thread next to first ds worked 4 see fig. 1

SR27: 2 + (vsp SR5 on wing) 2 / 2 + (vsp SR17) 2 CI SS

Ch: 6 T & C to base of foot.

**For a cockatoo**

After working SR4 add in yellow and work as follows:-

Take the yellow thread (Sh3) and make the first half of a double stitch around the Sh1 thread close to SR4 leaving a tail of roughly 2". **DO NOT FLIP THE STITCH.** Follow this with a second half of the ds again **DO NOT FLIP THE STITCH.** See fig 4 & 5 below

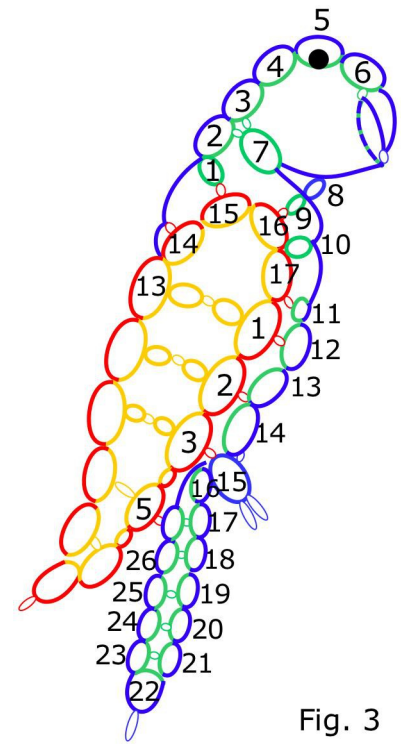

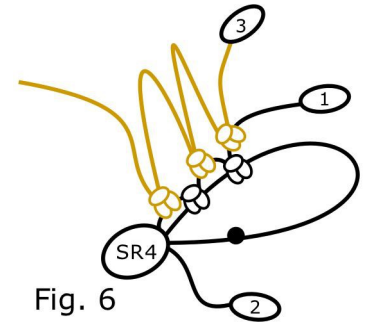

Fig. 3

Wrap Sh1 round hand (with B @ back of hand).

Make a normal flipped ds using the white thread on Sh1. Take Sh3 again and make another unflipped double on the Sh1 thread round the hand leaving a long picot which will later be cut. Repeat this three times. SR5 is written below (remember that the first yellow is made before starting the SR).

SR5: white yellow white yellow white yellow white yellow white / 1 + (vsp SR4) 2 MB 2 vsp 1 CI

Make a further ds with yellow on Sh1 thread between SR5 & SR6 and cut leaving a 2" end. Work as before from SR6.

The long picots can be cut and shaped when the bird is completed.
