Version 1 is the easier of the two options but in my opinion a lot less attractive and less challenging and fun to make.

**Materials and skills required:-**

No. 20 thread, small seed beads and a 3" diameter metal ring (bracelet). Knowledge of split rings and using beads.

**Please note that when working version 2 of this pattern it is easier to add the beads before the very large picots are made. Before starting and using your chosen thread, tat a few ds, measure a picot of 1/2" and see how many of the beads you intend to use will fit (leaving a small space at the end for joining). Make another picot of 1/4" and again add the beads in the same way. Note how many beads are required for each measured picot before starting. See [this page](#) for help in adding beads.**
