

Fig. 17

Continue the chain from the day 10.

Ch: 4 + (vsp R12 on 1<sup>st</sup> section worked – can you find it?!?!?) 3 + (vsp R9 on section 1) 4 + (vsp R5 on section 1) 4 + (vsp R1 on section 1) 3 Lj (Ch between R10 & R11) 4 Lj (vsp base R11) T & C

Make sure all the VLP's on the neck are pulled to the front of the work (the rooster should be facing towards the right) and press. You can trim the tail feathers according to taste.

Well, tat's the end of tat. Now you have a rooster called Norman – would you like the rest of the family?

OK, well, it's now time to introduce [Norman the Rooster](#), his wife [Aileen and the kids](#).

A bit about the real Norman and Aileen. These are friends of mine who I see from time to time. They keep chickens in their garden and always send me away with a dozen eggs when I visit them. Norman grows all their vegetables and talks to his 'girls' as he works. Aileen does the most amazing craft work but, as yet, hasn't learnt to tat!!! That's next on my list!!!

As you finish your Normans and/or if you make the rest of the family, I would love to put them on the TIAS blog. Would you also mind sending them in with the part of the world where you live? I would love to know where all the Normans are coming from! I'm just nosy!!!!

If you have enjoyed this Tat It And See maybe you would like to do one and use the TIAS blog too? I would be happy to help in any way with setting one up.

Thank you ALL for taking part. Without you all this would've still been an egg!!!!
